SUBJECT INDEX

A

Abstracts, 32:72, 32:167, 32:260, 32:366
Acquired immunodeficiency syndrome, HIV and, knowledge and attitudes of athletic trainers toward, treatment of HIV-positive athletes and, 32:40
Ankle
  braces, sprain recurrence and, female soccer players, 32:21
  injuries/strength/flexibility/proprioception, college basketball players, 32:221
  inversion, effects of spatting and taping on, before and after exercise, 32:29
  joint proprioception, changes from athletic tape strips over skin, 32:141
  plantar flexion, peak torque and endurance, effect of cryotherapy on, 32:124
  selected appliances, effects on postural control, 32:300
  sprains
    effects of 6-week strength and proprioception training program on dynamic balance, single-case design, 32:127
    prophylactic for, joint restriction and movement performance, comparison of moleskin tape/linen tape/lace-up brace, 32:136
  unilateral functional instability, effects on postural sway and inversion/eversion strength, 32:226
Anterior cruciate ligament, hyperpronation as injury risk factor, 32:25
Arrhythmia, exertional chest pain, intercollegiate athlete, 32:59
Artificial turf, conditioning injuries from, preseason football training programs, 32:304
Athletic trainers
  education programs, 21st-century college student and, 32:52
  exposure to infectious bodily fluids, high school setting, 32:320
  hepatitis B immunization, NATA District IX, 32:315
  knowledge and attitudes toward HIV/AIDS, treatment of HIV-positive athletes and, 32:40
  NATABOC certification examination, predictors of success on, 32:323
  role in counseling of collegiate athletes, 32:148
  role in diabetes and exercise, 32:339
  social support in training room, athletes' expectations of, 32:333
Athletic training
  education, quality of supervision, student and supervisor perceptions of, 32:328
  model lightning safety policy for athletics, 32:251
  reform of education, editorial, 32:113
  undergraduate education, critical thinking in, 32:242

B

Basketball, college players
  ankle injuries/strength/flexibility/proprioception, 32:221
  partial tear of posterior cruciate ligament, case report, 32:155
Blunt trauma, edema from, rat hind limbs, effects of cold water immersion on, 32:233
Bodily fluids, infectious, exposure of athletic trainers to, high school setting, 32:320
Book Reviews, 32:78, 32:175, 32:276, 32:371
Braces
  ankle
    prevention of sprain recurrence, female soccer players, 32:21
    selected appliances, effects on postural control, 32:300

C

Carpometacarpal joint, thumb dislocation, felt augmentation for, 32:68
Certification, NATABOC examination, predictors of success on, 32:323
Chest pain, exertional, intercollegiate athlete, 32:59
Colds, upper respiratory tract infection, risk in athletes, epidemiology and immunology, 32:344
College
  athletes, role of athletic trainers in counseling of, 32:148
  21st-century students, athletic trainer education programs and, 32:52
Compartment syndrome, acute atraumatic exercise-induced, athlete, case report, 32:248
Conditioning injuries, artificial turf and, preseason football training programs, 32:304
Creatine, phosphocreatine and, use in exercise and sport, review, 32:45
Critical thinking, undergraduate athletic training education and, 32:242
Cryotherapy
  cold- and hot-pack contrast therapy, subcutaneous and intramuscular temperature change, 32:238
  edema from blunt injury and, rat hind limbs, 32:233
  effect on plantar flexion peak torque and endurance, 32:124
Cubital tunnel syndrome, collegiate wrestler, case report, 32:151
Current Literature, 32:88, 32:182, 32:283, 32:368

D

Diabetes
  exercise and, role of athletic trainer, 32:339
  foot, clinical implications, 32:55
Dislocations
  thumb, felt augmentation for, 32:68
  uncomplicated posterior elbow, management of, 32:63
Drugs, nonsteroidal anti-inflammatory, in treatment of soft tissue injuries, 32:350
Dynamic balance, effects of 6-week strength and proprioception training program, single-case design, 32:127

E

Edema, blunt injury and, rat hind limbs, effects of cold water immersion on, 32:233
Editorials, 32:13, 32:113, 32:205, 32:299
Education, athletic training
  quality of supervision, student and supervisor perceptions of, 32:328
  reform of, editorial, 32:113
Elbow, uncomplicated posterior dislocations, management of, 32:63
Electrical stimulation
  high-volt pulsed current, effects on delayed-onset muscle soreness, 32:15

investigation of quadriceps femoris function by, 32:115
microcurrent treatment, effects on pain and muscle strength after eccentric exercise, 32:119
Environmental hazards, lightning
model safety policy for athletics, 32:251
safety policy survey, Division I colleges, 32:206
Epidemiology, immunology and, risk of upper respiratory tract infection in athletes and, 32:344
Epistaxis, effective management in athletes, 32:254
Exercise
anaerobic, use of creatine and phosphocreatine in exercise and sport, review, 32:45
closed chain kinetic, patellofemoral pain and, leg rotation and muscular electromyogram activity, 32:216
diabetes and, role of athletic trainer, 32:339
eccentric, effects of microcurrent treatment on pain and muscle strength after, 32:119
induced acute atraumatic compartment syndrome, leg pain and, athlete, case report, 32:248
induced vasodepressor syncope, collegiate wrestler, case study, 32:359

F

Facial injury, effective epistaxis management in athletes, 32:254
Foot, diabetes on, clinical implications, 32:55
Football
helmet face mask, efficiency of tools for retraction of, 32:211
high school player, first cervical vertebra fracture, case report, 32:159
preseason training programs, conditioning injuries and artificial turf, 32:304
Fractures, first cervical vertebra, high school football player, case report, 32:159

H

Helmets, football, efficiency of tools for retraction of face mask on, 32:211
Hepatitis B
immunization of athletic trainers, NATA District IX, 32:315
infectious bodily fluids and, exposure of athletic trainers to, high school setting, 32:320
Human immunodeficiency virus
AIDS and, knowledge and attitudes of athletic trainers toward, treatment of HIV-positive athletes and, 32:40
infectious bodily fluids and, exposure of athletic trainers to, high school setting, 32:320
Hyperpronation, as risk factor, anterior cruciate ligament injuries, 32:25

I

Immunology, epidemiology and, risk of upper respiratory tract infection in athletes and, 32:344
Infection, upper respiratory tract, risk in athletes, epidemiology and immunology, 32:344

J

Jefferson fracture, first cervical vertebra, high school football player, case report, 32:159
Joints, restriction and movement performance of ankle prophylactics, comparison of moleskin tape/linen tape/lace-up brace, 32:136
Journal of Athletic Training, role of scholarly journal for athletic training, editorial, 32:13

K

Knee
anterior cruciate ligament, hyperpronation as injury risk factor, case report, 32:25
posterior cruciate ligament, partial tear of, college basketball player, case report, 32:155

L

Leg, pain, acute atraumatic exercise-induced compartment syndrome, athlete, case report, 32:248
Ligaments
anterior cruciate, hyperpronation as injury risk factor, 32:25
posterior cruciate, partial tear of, collegiate basketball player, case report, 32:155
Lightning
model safety policy for athletics, 32:251
safety policy survey, Division I colleges, 32:206

M

Muscles
creatine and phosphocreatine, use in exercise and sport, review, 32:45
delayed-onset soreness, effects of high-volt pulsed current electrical stimulation on, 32:15
pain and strength after eccentric exercise, effects of microcurrent treatment on, 32:119
proprioceptive neuromuscular facilitation techniques, reassessment, 32:34
quadriceps femoris function, investigation by electrical stimulation, 32:115
subcutaneous and intramuscular temperature change, cold- and hot-pack contrast therapy, 32:238
vastus medialis oblique/vastus lateralis, leg rotation and electromyogram activity, kinetic exercise for patellofemoral pain, 32:216

N

National Athletic Trainers' Association Board of Certification, certification examination, predictors of success on, 32:323
Neuropathy
cubital tunnel syndrome, collegiate wrestler, case report, 32:151
diabetes on foot, clinical implications, 32:55
New Products, 32:85, 32:181, 32:281, 32:374
Nonsteroidal anti-inflammatory drugs, role in treatment of acute soft tissue injuries, 32:350
Nosebleeds, effective management in athletes, 32:254

P

Pain
leg, acute atraumatic exercise-induced compartment syndrome, athlete, case report, 32:248
patellofemoral, closed chain kinetic exercise for, leg rotation and muscle electromyogram activity during, 32:216
Peripheral vascular disease, diabetes on foot, clinical implications, 32:55
Phosphocreatine, creatine and, use in exercise and sport, review, 32:45
Plantar flexion, peak torque and endurance, effect of cryotherapy on, 32:124
Policies, lightning safety, survey of Division I colleges, 32:206
Posterior cruciate ligament, partial tear of, collegiate basketball player, case report, 32:155
Posture, control, effects of selected ankle appliances on, 32:300
Proprioception
ankle injuries/strength/flexibility and, college basketball players, 32:221
ankle joint, changes from athletic tape strips over skin, 32:141
ankle sprains, unilateral functional instability, effects on postural sway and inversion/eversion strength, 32:226

Proprioceptive neuromuscular facilitation, sports medicine techniques, reassessment, 32:34
Psychology, injuries, social support in training room, athletes' expectations of athletic trainers, 32:333
Pulsed current, high-volt electrical stimulation, delayed-onset muscle soreness, 32:15

Q

Quadriceps femoris function, investigation by electrical stimulation, 32:115

R

Range of motion, ankle injuries/strength/flexibility/proprioception, college basketball players, 32:221
Rehabilitation
  cold- and hot-pack contrast therapy, subcutaneous and intramuscular temperature change, 32:238
  uncomplicated posterior elbow dislocations, management of, 32:63
Rhinovirus, upper respiratory illness, effects on running gait, 32:309
Running, gait, effects of viral upper respiratory illness on, 32:309

S

Safety equipment, football helmet face mask, efficiency of tools for retraction of, 32:211
Soccer, female players, ankle brace prevention of sprain recurrence, 32:21
Soft tissue injuries, treatment of, nonsteroidal anti-inflammatory drugs in, 32:350
Spatting, taping and, before and after exercise, effects on ankle inversion, 32:29
Sport psychology, counseling of college athletes, role of athletic trainers, 32:148
Sports medicine, proprioceptive neuromuscular facilitation techniques, reassessment, 32:34
Sprains
  ankle
    ankle brace prevention of recurrence, female soccer players, 32:21
    effects of 6-week strength and proprioception training program on dynamic balance, single-case design, 32:127
    prophylactic for, joint restriction and movement performance, comparison of moleskin tape/linen tape/lace-up brace, 32:136
    unilateral functional instability, effects on postural sway and inversion/eversion strength, 32:226
    ankle inversion, effects of spatting and taping on, before and after exercise, 32:29
Sudden death, exertional chest pain, intercollegiate athlete, 32:59
Swelling, blunt injury and, rat hind limbs, effects of cold water immersion on, 32:233

T

Taping
  spatting and, before and after exercise, effects on ankle inversion, 32:29
  strips over skin, changes in ankle joint proprioception, 32:141
Thermotherapy, cold- and hot-pack contrast therapy, subcutaneous and intramuscular temperature change, 32:238
Thumb, dislocations, felt augmentation for, 32:68
Torque, endurance and, plantar flexion, effect of cryotherapy on, 32:124
Training room, social support in, athletes' expectations of athletic trainers, 32:333

U

Ulnar nerve, entrapment, cubital tunnel syndrome, collegiate wrestler, case report, 32:151
Upper respiratory tract, infection, risk in athletes, epidemiology and immunology, 32:344

V

Vasodepressor syncope, exercise-induced, collegiate wrestler, case study, 32:359
Vastus medialis, vastus lateralis and, leg rotation and electromyogram activity, kinetic exercise for patellofemoral pain, 32:216
Vertebra, first cervical, fracture, high school football player, case report, 32:159
Video Reviews, 32:84, 32:180, 32:280
Virus, upper respiratory illness, effects on running gait, 32:309

W

Wrestling
  collegiate
    cubital tunnel syndrome in, case report, 32:151
    exercise-induced vasodepressor syncope, case study, 32:359
